

Simple. Natural. Hardwoods.

NWH ALDER GRADES, SORTED BY WIDTH

NWH is pleased to announce our new sorting of Alder by width, a move aimed at enhancing material yield, consistency, and overall product quality.

Maximize the Value of Every Piece

By categorizing our Alder Premium and Superior into precise width ranges, we streamline your production and inventory management, ensuring you receive lumber that meets your exact specs with minimal waste. This new approach maximizes material use, guarantees precise and predictable dimensions, and makes manufacturing a little bit easier.

Manufacturers seek precise yields, and our pre-sorted Alder grades deliver.

New Product Specifications

Superior Grade Sorts**

SUP4: 4-5"

SUP5: 5-6"

SUP6: 6-7"

SUP7W: 7"+

These SUP sorts have not been sorted or picked over for SSB (Select Slicing Board) or Firsts, ensuring a higher yield of usable material.

Premium Grades Sorts**

PREM4: 4-5"

PREM5: 5-6"

PREM6: 6-7"

PREM7W: 7"+

* 1-5% under 4"

** Sold on block tally

Product Replacements and Changes

- PREM4 would replace KSTRP.
- PREM5 would replace PREMSTW (same specifications).
- PREM7+ would replace PREMWIDE (previously 6"+).
- Character Mark would be transitioned over to PREM7W.
