Western Region & Species

Defined by low-elevation, coastal forests and a mild, maritime climate, the Western region supports fast, healthy tree growth and offers a dependable combination of performance, quality, and supply.

Alder, Oregon White Oak, PC Maple

Glacial Region & Species

Shaped by cold winters and short growing seasons, the Glacial region—often referred to as “Northern”—produces slow-growing hardwood prized for its tight grain, strength, and color consistency.

Ash, Basswood, Cherry, Hard Maple, Hickory, Red Oak, Soft Maple, Walnut, White Oak

Appalachian Region & Species

With rich soils and steady rainfall, the Appalachian region is known for hardwoods with predictable grain, reliable width, and strong yields.

Ash, Basswood, Beech, Cherry, Hard Maple, Soft Maple, Hickory, Poplar, Red Oak, Walnut, White Oak, Yellow Birch
